

The Results of God's Wrath

Romans 1:24-32

Abandoned

- God delivers people over for destruction to the sin of their own choosing.
- When God abandons a soul, that person is dead while he lives.
- No one can come to God unless God first reveals Himself to them.
- A person who rejects the revelation of God runs the risk of God abandoning them to the choice they have made.

Results of Rejecting God

- Moral degradation is a consequence of God's wrath not the reason for it.
- Man has the desire to be a god or master of his own destiny.
- Society today considers the Bible antiquated and out of touch with today's world.
- The world around us considers themselves "enlightened" but the word of God says they are in darkness.

Progressive Action

- The process of God giving one over is a progressive action.
- Scripture tells us that in the later times there will be a great falling away.
- Our culture is anything but Christian.
- Having no conscience is a sure sign of God giving one over.
- One of the responsibilities of leadership is to encourage righteousness and thereby restrain sin.
- Our Justice system, with worldly judges and worldly law makers, is forcing people to accept ungodly issues.

Conclusion

- We have the means of escape from the judgment and the wrath of God which is coming; His name is Jesus.
- If you are wondering if God has given you over, then it is not too late.
- Those thoughts are the moving of the Holy Spirit, God drawing you to Jesus.
- If God hasn't given you over, He is delaying for your sake.
