

Who Am I?

Psalms 8:1-9, Genesis 1:1-2, Genesis 2:7, Genesis 1:30

Life

- Many people believe that all life rose out of some primordial ooze made up of a slurry of chemicals.
- If we are the result of random combinations of chemicals what is the purpose of life?
- Imbedded in the very core of our DNA is the hope and the firm belief that there is a purpose to life.
- What is the point of all our struggles, hopes, and dreams if they all come to nothing?

Is Life An Accident?

- Who created us and gave us life?
- If you hold to the Big Bang Theory, from where did the energy come that caused that initial explosion?
- Organic compounds can be made from inorganic chemicals, but in order to form these amino acids scientists had to interject something into the system.
- Someone or Something had to make the atoms that formed the molecules that formed the amino acids.
- Someone or Something had to form the electrons that zapped the primordial soup.

A Divine Engineer

- If the Big Bang Theory is true, it still speaks to the work of God.
- Everything that science has come up with to explain the universe are all proof of the existence of a highly intelligent and highly imaginative Creator.
- There is something about life that is clearly more than just a collection of parts or chemicals.
- Take away God's breath of life and we return to the dust and dirt from which we came.

The Bible

- The spark of life that lives within us yearns to return to its source.
- If you believe that we are just random accidents, you are going to have to have a view of the universe that does not include God.
- The Bible touches so many people because its Words strike a deep note within us.
- The Bible tells us that Someone took a great deal of time and carefully, lovingly formed us.

Conclusion

- We are God's children.
- We exist because God breathed His very breath into us.
- We are the means that God uses to create life.
- Life, which only God can create, is life that was created by careful and intentional design.
- *"O LORD, our God, how majestic is Your name in all the earth."*
